

Dear Sir or Madame,

my name is Aaron Serpa. I am a new graduate from San Jose State university with a GPA of 3.5, aspiring to be a software engineer. I believe that I would be a good fit for this position because of my experience with Java, Android Studio, C++, and python. I have minor experience in JavaScript and C as well, with a willingness to learn and master whatever I need to. I really want this job and look forward to hearing back from you!

Thank you for your time.

-Aaron Serpa
